## Description

### 2024 520 Top Ender Mercury 90hp EFI Alloy I-Beam Trailer

Originally invented for the 'top end', the 520 Top Ender is a popular fishing favourite Australia wide. The Top Ender's barra-bass tournament style layout, deep sides and the Blade Hull and Flared Bow combination make the range perfect for remote creeks, estuaries and open bays. If you like sport angling this is the boat for you.

#### What You Get ?

1 x 520 Top Ender with all of its Standard Options 1 x Alloy I-Beam 1400 ATM trailer, 1 x Mercury 2.1 L 90hp EFI Four Stroke Outboard with Mercury SC 1000 Multi- Function tacho and Gen 2 Side mount control Box with Aluminium Prop, Basic Safety gear tie down straps and 12 months QLD registration for the Hull and Trailer.

Despite being called a 520 this boat is actually 5.49m long and 2.2 wide with a Hull only weight of 513kg in the form of the exclusive Quintrex blade hull including the Quintrex only flared bow this hull just works providing exceptional stability and that uncanny Quintrex only smooth and dry ride.

In the trailer department frankly it does not get any better as it rides on the proven Quintrex Alloy I-Beam 1400 ATM full drive on trailer that not only supports the boat perfectly but will easily outlast a galvanized steel trailer plus you can easily add the option of the Quintrex catch and release boat catch that will transform how you launch and retrieve your boat.

In This package we have opted for what is arguably and quite possibly one of the most versatile and most powerful four strokes in its class with class being the operative word as this engine will redefine what you have come to expect from modern four strokes!

How is this so? The short answer it is a 2.1L engine and that equates to more cubic capacity than a 140hp Suzuki and 130hp Yamaha and that means that the 90 mercury does not have to work or rev as hard to get you moving with the end result being class leading power from idle to WOT plus a timing chain and self-adjusting hydraulic lifters.

Plus Mercury guarantees no more than .2% copper by product in its metals used in everything from blocks, Heads Gear cases, Shafts etc Hence Mercury is the only Outboard Manufacturer to offer a limited 3 year corrosion warranty, Put in perspective the big three Japanese manufactures copper by product ranges from 2.5% to 3.8% significantly more than Mercury .2 %

All said and done with its 95 L underfloor fuel tank and a 2.1L 90hp EFI four stroke Mercury you can expect scintillating hole shot sensational economy in more comfort than most.

Ultimately the 520 Top Ender with the next generation of Quintrex Blade hull and flared bow Powered by a 90 EFI Mercury Four stroke is the best of a lot of worlds a lot to like more to love and nothing not to like.
