Description

2024 Quintrex 530 Frontier SC Mercury 115hp 2.1 litre Four Stroke EFI

2024 Quintrex 530 Frontier Side Console has been labelled as revolutionary and groundbreaking primarily due to the all new Quintrex Apex hull design that in reality is everything it is said to be and yes i have driven them in substantially less than ideal conditions.

The Frontier is a boat that is loaded with standard options plus a host of Quintrex options specifically targeted at achieving the perfect set up for you. For example extra fuel capacity can be specified if your type of fishing involves big miles on the water or perhaps an extra live bait tank, Even the front cast deck height can be adjusted at time of boat order.

Personal touches from paint colour to Vinyl wrap simply mean you can personalise your boat as much or little as you like,

This package is powered by arguably the best 115hp EFI Four Stroke available and the reason or reasons why this engine is so good starts with its massive 2061 cc cubic capacity (2.1litre) that is substantially greater than all other brands and the good news story just continues with its light weight of 163kg and proven performance in the market place where it is known as extraordinarily economical, super quiet and most importantly its gargantuan torque or push you into the seat power that can only be obtained with cubic capacity and the Mercury EFI 115 has the largest cubic capacity in class.

Mercury smart craft gauges including fuel management data are included in this package giving you an amazing array of information at your finger tips.

Trailers do not get much better than the Quintrex I Beam aluminium unit as supplied standard in fact these trailers have proven to be exceptional in how they not only support the boat but last overtime practically eliminating the need to ever replace the frame.

Ultimately the Quintrex 530 Frontier is an extraordinary boat that genuinely provides the next level in on water performance while underway or stationery as your own personal casting platform with a level of stability more like a jetty than a boat.

This package is an extraordinary opportunity to get on the water in what is arguably one of the best Boat Motor and trailer Packages a fisherman could dream of.

What you Get is the Base 530 Frontier Side Console / The 2.1 litre Mercury 115hp EFI Four Stroke / Mercury smart craft multi function tacho / Premium Quintrex I Beam Aluminium Trailer/ 12 Months QLD Registration hull and trailer / Basic safety gear / All Standard Quintrex 530 Frontier Standard Features.

Plus the ability to add what you want from the Quintrex option list and create a boat you want not what someone else thinks you need.
